Development & Peace Fall Campaign

People and Planet First

As an official organization of the Canadian Catholic Church, Development & Peace is deeply rooted in the values of the Gospel especially the preferential option for the poor. Speaking up for rights and protesting injustices are powers we take for granted in Canada. In parts of the Global South, however, this can be dangerous. Communities are often threatened and criminalized for defending their rights to healthy land, air and water. It is therefore crucial to amplify the voices of our brothers and sisters who are fighting to protect our common home. This is a catholic imperative, because as Pope Francis writes, "A true ecological approach always becomes a social approach, it must integrate questions of justice in debates on the environment, so as to hear both the cry of the earth and the cry of the poor." Laudato Si

In Canada D&P recognizes that we are guests on territory of Indigenous Peoples and are learning from them how to be in right relationships with the Earth, each other, God and ourselves. Let us show solidarity with all peoples by refusing to regard our common home solely as a resource to be exploited.
